

MSc

MASTER OF SCIENCE PROGRAMS

EMPLOYMENT REPORT 2016

SSE MASTER GRADUATES HAVE A WIDE SELECTION OF CAREERS

SSE graduates are very successful in launching their careers. 92% of the Master students who finished their studies in 2015 found employment within three months of completing their degrees. 74% of the graduates found jobs before finishing their studies.

The outstanding network of Corporate Partners and our tradition of building strong company relations are undoubtedly factors behind this success. The most popular companies to attract the 2015 graduates are some of the world's best known, including KPMG, Nordea, McKinsey & Company, Deloitte, PWC, H&M, The Boston Consulting Group and Bain & Company.

Both the school and the Student Association provide students with extensive opportunities to meet with employers and recruiters. The unique MSc Mentor Program matches mentors from our extensive network of SSE Alumni and Corporate Partners with students; this has proved to be very helpful, in particular for international students wishing to enter the Swedish business world. 26% of the 2015 international graduates started working in Sweden.

For those students wishing to start their own businesses,

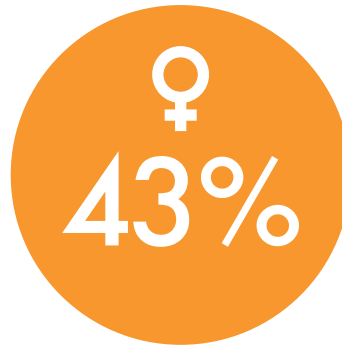

the school's incubator SSE Business Lab leverage Stockholm's well-known profitable climate for start-ups and offers support to entrepreneurial students.

The wide networks and industry connections of the Course Directors and Program Directors also open many doors for our students and provide invaluable support to students in their job search. As representatives of international businesses and organizations are often invited to participate in SSE's educational programs through projects, live cases, class visits and guest lectures, our students are able to form connections with potential employers throughout the duration of their studies.

We would like to thank our recruiters, alumni and corporate partners for contributing to the professional development of our students and graduates. We look forward to continuing to work together towards global and sustainable business success.

WHAT ALUMNI THINK

"The academic rigor of the Master program at SSE was instrumental in preparing me for my career. SSE produces self-starters comfortable with solving complex problems, a profile that makes you valuable in a multitude of different career tracks."

Tobias Renström, Operations Manager, Uber

"SSE set me up for success, both as a person and in developing strong skills for my career. The Master program and being part of the CEMS program prepared me for cross-cultural collaboration in the best possible way. Also, my involvement in the Student Association helped me develop my project leadership skills."

Charlotte Ekelund, Senior Manager,
Portfolio Development, Coca-Cola Enterprises

"By studying at SSE I was thoroughly trained in hard-work, commitment and constant learning. More importantly, I met smart, fun and helpful people that contributed to developing my personal skills, which led to various internships and full-time jobs."

Rehan Chaudhry,
Associate Operations
Development, Attendo

STOCKHOLM SCHOOL OF ECONOMICS

The Stockholm School of Economics (SSE) is rated as the top business school in the Nordic and Baltic countries and is highly regarded internationally. SSE offers programs of the highest international standards, including bachelor, master, PhD, Executive Format MBA, and executive education programs. The school also conducts world-class research. Our programs are developed in close cooperation with the business and research communities, which gives our graduates great potential to attain leading positions in companies and other organizations. The school is accredited by EQUIS, certifying that all of the main activities – teaching as well as research – are of the highest international standards. SSE is also the only Swedish member institution of CEMS and PIM, which are collaborations between top business schools worldwide, contributing to the high quality SSE is known for.
